

Jamie Kneiss

Front-End Developer

(570) 575-4249 · jamiej@icloud.com · jkneiss.github.io · linkedin.com/in/jkneiss · Pittsburgh, PA

SUMMARY

Front-end developer with a B.A. in Web Design & Development from Full Sail University and hands-on experience building client sites, custom tools, and interactive web applications. Comfortable across HTML, CSS, JavaScript, PHP, and WordPress — with a track record of shipping clean, maintainable work for real clients. Currently seeking front-end roles in Pittsburgh or remote.

SKILLS

Languages	HTML · CSS · JavaScript · PHP · MySQL
Frameworks	React · Next.js · Svelte · Node.js · Express.js
Platforms	WordPress · WooCommerce · GitHub Pages
Tools	Git / GitHub · DNS Management · Adobe Photoshop · Adobe Premiere Pro
Other	REST APIs · SVG · Web Performance · SEO · Responsive Design

EXPERIENCE

Web Developer (Seasonal)

May 2025 – Aug 2025

Quality Pools & Spas — Chinchilla, PA

- Maintained and updated client-facing website content throughout the season.

Front-End Developer

Apr 2023 – May 2024

Intrada Technologies — Muncy, PA

- Built and launched multiple WordPress and custom-coded websites for regional clients including law firms, nonprofits, and manufacturers.
- Managed DNS configuration, site performance optimization, and SEO improvements across the client portfolio.
- Guided non-technical clients through technical decisions, translating requirements into clean, maintainable builds.
- Owned projects end to end — scoping, development, testing, and deployment.

Website Manager

Sep 2022 – Apr 2023

Silent Sound System — Wilkes-Barre, PA

- Managed multiple WordPress sites for startup businesses — plugins, theme updates, content changes, and SEO.
- Secured and configured new domains to support company expansion.
- Improved site performance, user experience, and search rankings across the portfolio.

EDUCATION

B.A. — Web Design & Development

Oct 2019 – Oct 2021

Full Sail University — Winter Park, FL

PROJECTS

Portfolio Tools

jkneiss.github.io

Six standalone browser tools built as portfolio pieces — Round Timer, Tournament Bracket Generator, Site Audit Tool, Sparring Film Room, Grappling Flowchart Builder, and a Martial Arts Style Quiz. Each is a single dependency-free HTML file.

CHARTE Center Redesign

jjkneiss.github.io/charte-redesign

Full website redesign mockup for a Pittsburgh psychotherapy practice. Includes six HTML pages, a complete CSS design system, and a custom SVG logo.

McCormick Law Firm

mcclaw.com

WordPress website build for a regional law firm. Clean, professional design focused on trust and clarity.

Families United Network

families4kids.org

WordPress website for an adoption and foster care agency. Warm, accessible design with resource pages and family stories.

Lycoming Vault & Precast

lycomingprecast.com

WordPress site for a concrete precast manufacturer. Product catalog, specs, and contact built for a trade audience.
